

## GIFTED PARIS VIOLINIST.

The above is a likeness of Miss Esther Margolen, of Paris, Ky., who will give a musical concert at the Court-house in Mt. Sterling Friday evening, March 10. Miss Margolen is a talented and accomplished violinist and has many admirers wherever she has played.

Miss Margolen when quite young received her first lesson on the violin from Sam Finney, an old ex-Confederate soldier, who was a musician of considerable note. She seemed to have mastery of the bow from the start, as if it were a natural gift. Seeing that his daughter was deeply interested in the study of music, and that her favorite instrument was the violin, her father, Mr. H. Margolen, decided to give her the best possible instruction. He sent her to Cincinnati and placed her under the tutelage of Prof. Hahn, where she studied for three years. She then took a two years' course under Prof. Harry Froelich, of the Auditorium.

Miss Margolen has given numerous recitals, as well as adding her violin to the choirs of the various churches in Lexington. She is now engaged in teaching a class at Carlisle, Ky., and two of her pupils, Master Henry Bramlet and Miss Virginia Bramlet, will be heard in the concert at Mt. Sterling.

## PEACE TERMS

Made Known by St. Petersburg Reports—Indemnity the Unsettled Point.

A dispatch on Feb. 22, to Reuters Telegram Company from St. Petersburg, confirms advices from St. Petersburg to the effect that peace was under consideration, and adds that definite terms are being discussed there. The dispatch says:

The question of peace has not only been formally discussed, but the conditions on which Russia is prepared to make peace have practically been agreed upon. These are as follows:

"Korea is to be placed under Japanese sovereignty.

"Port Arthur and the Liao Tung peninsula to be ceded to Japan.

"Vladivostok to be declared a neutral port, with an open door.

The Eastern Chinese Railroad to be restored under neutral international administration.

"Manchuria, as far north as Harbin, to be restored as an integral part of the Chinese Empire.

"The difficulty lies in settling the question of indemnity, upon which it is known that Japan insists, but it is thought that this difficulty is not insuperable.

"The most trustworthy opinion at St. Petersburg is that, in view of the internal situation and the enormous difficulty in carrying on the war, peace on the terms outlined will be concluded within a comparatively short time, if the indemnity question can be arranged, but it is quite possible that Russia will risk another battle before a decision is reached."

## BEREA COLLEGE.

Fined \$1,000 For Violation of Day Act.—Appeal To Be Taken.

At Richmond, Ky., on Feb. 21st, Berea College was fined \$1,000 for violation of the Day Act, the law passed by the General Assembly prohibiting the co-education of the white and colored races.

When the law was passed the college authorities at once declared their intention to abide by its provisions pending a decision as to its constitutionality. In order to raise the question a technical violation of the act was committed, and on such violation, by consent, the college as a corporation was indicted.

The college demurred to the indictment and the question of constitutionality was thus raised. Briefs were filed by both sides and Judge J. M. Benton overruled the demurrer and held the law constitutional. The conviction and fine followed as a matter of course, as the college made no defense as to the facts.

The case will go at once to the Court of Appeals of Kentucky.

The Federal officers in Chicago are busily engaged in gathering evidence to be used in the investigation of the Beef Trust before the special grand jury which is to meet on March 20. Commissioner of Corporations, Garfield is completing his report on the operations of the combine and will have it ready this week for the inspection of President Roosevelt.

The sixth annual tobacco fair at Mayaville, Ky., was a success. The highest prices paid were ninety cents per pound for lugs.

## IN THE "GOOD OLD TIMES."

Facts Which Tend To Show How Much Better Off We Are To-day.

Not until February of 1719 did the people of Kentucky know that Madison was elected President in the previous November.

In 1834 one of the leading railroads printed on its time table: "The locomotive will leave the depot every day at 10 o'clock, if the weather is fair."

In England some centuries ago, if an ordinary workman, without permission, moved from one parish to another in search of work or better wages he was branded with a hot iron.

When Benjamin Franklin first thought of starting a newspaper in Philadelphia many of his friends advised against it, because there was a paper published in Boston. Some of them doubted that the country would be able to support two newspapers.

One hundred years ago, the fastest land travel in the world was on the Great North road, in England, after it had been put into its best condition. There the York mail coach tore along at the rate of ninety miles a day, and many persons confidently predicted Divine vengeance on such unseemly haste.

When Thomas Jefferson was elected President of the United States, on February 17, 1801, after one of the most exciting political campaigns in our history, the gratifying news did not reach the suc-

successful candidate for as many days as it now takes hours to transmit the result of a Presidential election to the whole civilized world.

When in 1809, Richard Trevithick uttered the following words there was many who considered him an insane, dangerous person: "The present generation will use coal, the next will prefer railroads with horses, but their more enlightened successors will employ steam engines on railways as the perfection of the art of conveyance."

When Benjamin Franklin first took the coach from Philadelphia to New York he spent four days on the journey. He tells us that, as the old driver jogged along, he spent his time knitting stockings. Two stage coaches and eight horses sufficed for all the commerce that was carried on between Boston and New York, and in winter the journey occupied a week.

Napoleon, at the height of his power, could not command on every day conferences, such as steam heat, running water, bath and sanitary plumbing, gas, electric light, steam-boats, the telegraph, the telephone, the phonograph, daily newspapers, magazines, and a thousand other blessings which are now a part of the daily necessities of even manual laborers.

When the first wotons of anthracite coal were brought into Philadelphia in 1803 the good people of that city, so the records state "tried to burn the stuff; but, at length, disgusted, they broke it up and

made a walk of it." Fourteen years later Colonel George Shumaker sold eight or ten wagonloads of it in the same city, but warrants were soon issued for his arrest for taking money under false pretenses.

## WILLARD STATUE.

Unveiled at Washington Only Statue of Woman in Statuary Hall.

The snow-white marble statue of Miss Francis E. Willard, conspicuous as the only statue of a woman among a score or more of images of noted men, was unveiled in Statuary Hall of the capitol at Washington, on afternoon of Feb. 17, with exercises of a highly interesting and impressive character. The statue is a gift from the State of Illinois, but its formal acceptance was made the occasion for a loving tribute from the women of the entire country to the memory of the great temperance leader.

The exercises were conducted under the auspices of the Woman's Christian Temperance Union of the District of Columbia. The national officers of the organization, a number of the state presidents and many leading workers from various parts of the country were in attendance. The exercises were attended also by the members of Congress in a body and addresses eulogizing the life, character and work of Miss Willard were delivered by several of the representatives from Illinois. 1,000 school children filed through Statuary Hall and each placed a white carnation at the base of the statue.

The statue is the work of Miss Helen Farnsworth Mears, of Wisconsin. It represents the famous temperance leader standing in modern dress by a reading desk as though about to address an audience. In her left hand are a few leaves of manuscript and her right arm rests easily on the desk. At her feet on the pedestal are carved these words from one of her addresses:

"Ah! it is women who have given the costliest hostage to fortune. Out into the battle of life they have sent their best loved, with fearful odds against them. Oh, by the dangers they have dared; by the honors of patient watching over beds where helpless children lay; by the income of ten thousands prayers wafted from their gentle lips to heaven, I charge you to give them power to protect along life's treacherous highways those whom they have so loved."

## GOV. TAYLOR.

Now of Indiana Sends Mock Defendant Letter Outlining His Defense.

Former Governor William S. Taylor, Kentucky, has sent a letter to O. F. Missman, the student who impersonates him at the mock trial at Des Moines, Ia., in which he outlines his defense as fully as if his life hung in the balance. He explains in detail that he helped bring the mountaineers to the State Capitol purely for moral effect, and that they served their purpose and departed five days before the assassination of Goebel. As regards the latter, he had no knowledge and never discussed it with any of the confessed conspirators.

Mr. Taylor has taken an active interest in trial, and his attorneys and those of Caleb Powers have been indefatigable in their efforts to equip the student lawyers with all information in their possession.

## The Out-door Treatment For Diseases.

The effectiveness of the out-door treatment for diseases of the respiratory organs has received a remarkable endorsement in the first report of the New York State Hospital for the treatment of incipient tuberculosis, says the Oil City Derrick.

The sanitarium is located in the Adirondacks, and was opened in July, 1904, and has admitted eighty-two patients during the past six months. Of these, eleven have been discharged as cured, nineteen have apparently recovered, and in thirty-four the disease has been arrested.

The remainder, while showing some improvement, have not been long enough in the hospital to make certain positive results.

The patients not only sleep in the open air, being only protected from drafts and snowfalls, but spend much of the day time out of doors, playing billiards, cards and chess with a roof over their heads and a windbreak to shield them from the blasts, but there are no walls to the leeward. Human beings thrive on pure air. Pure air is not necessarily cold air, but the general tendency is to keep our artificially heated room improperly ventilated. It is in order to insure absolute purity of the air that enters the lungs that the out-door treatment is recommended.

With the thermometer flirting with the zero mark, the very idea of those people up in the Adirondacks sleeping in the open air is enough to make one shiver, but the wonderful successes that have followed this system of treatment demonstrate how quickly the average human being adapts himself to natural conditions. The people of the Arctic regions quickly succumb to climatic influence when removed to more temperate countries, but the average resident of the temperate zone is more readily acclimated and manages to endure the most violent extremes of cold and heat, ranging from the Klondike to the equatorial regions with comparative impunity.

## STOESSSEL

Sets Foot on European Soil and Condoles With Widows and Orphans.

Lieut. Gen. Stoessel, the former commander at Port Arthur, arrived at Kafa, Crimea, on Feb. 22. He was welcomed by a cheering crowd. At the docks a deputation from the municipality presented him with the traditional bread and salt and an address of welcome, Stoessel, addressing the assemblage, said:

"My officers and soldiers coming back to the fatherland bow to you." Many relatives of those who had defended Port Arthur were present, and there were pathetic exhibitions of grief and joy, according to the news he received. Stoessel personally condoled with the widows and orphans, and many of them kissed his hand. The General expressed indignation at the reports regarding the numbers of the available troops at Port Arthur at the time of the surrender of the fortress, and said the statements made were all untrue. The Russian fleet, he added, was destroyed beyond repair, there was no medicine in the fortress, it could not have held out more than a day longer and the surrender saved the women and children.

If we keep adding new States the map will have to be set in nonpareil.

## THAT LOOK.

Young married folks should be careful with their facial expressions about things edible. An Iowa young husband who had enjoyed his mother's flap-jacks and who got a wife without experience in the pan-cake art, and who looked at the cakes with such an expression that it brought poor health to the wife, and she has asked for a divorce.

The flattering prospect for the speedy construction of \$100,000 government building, as the result of the Commercial Club of years ago, should inspire the Mens Club to more strenuous efforts in the securing of the Mt. Sterling Short Line Railroad. It should also encourage the citizens of Mt. Sterling to reorganize their men's club and to be on the alert in securing of the numerous enterprises that could be made to pay here.

The full length of Main street, also of Mayville and other streets is a real branch of slush. The present condition of the streets will doubtless put our Council to thinking and they may adopt the use of something, other than the soft stone which is slush during the rainy period and dust during a drouth.

## LOOK THIS WAY.

A negro postmaster wants to give up his job but the postoffice department refuses to consider his resignation because there is not another man at the Way Station that would have it. He indignantly accuses the Government of pronging. If the town would extend an invitation to some Kentucky office-seekers it would soon have an abundance of applicants.

## DESERVE LOWEST RATE.

New horse wagon, well trained horse, and experienced superintendent, level headed chief, quick and capable firemen, bucket and ladder brigade, two fire engines, an inexhaustible water supply with adequate pressure, places Mt. Sterling in line for the lowest insurance rates. If she is not getting the lowest the Council would do well to look into this matter by special committee.

## PURPLE AND GOLD.

Purple and Gold is the name of the Mt. Sterling High School Journal. It is well edited, full of good material articles. Its first issue appeared February 27th and was in demand. The next issue will be a great improvement on the first. We welcome the Purple and Gold most gladly. Its mission of inspiring its readers to higher and more thorough education is a noble one and every citizen should give their support and influence. Mt. Sterling citizens have shown their appreciation by a liberal patronage.

Long live the Purple and Gold!

## BE CORRECT.

The Courier-Journal seems to have been premature in saying that the Hargis gang, in view of the exposure of their most recent plans, had not the effrontery to rely upon the indictments found by the Breathitt grand jury last week. Mr. McQuown, one of their attorneys, not only harshly criticized Judge Riddle for holding up those indictments temporarily, but sought by a roundabout method to get a copy of one of the indictments before the higher court. Freeman, on the witness stand showed himself to be, and was shown to be, just the kind of creature that such gentry might be expected to make use of in their scheme to cheat justice by legal thimberlingery.—Courier-Journal.

Attorneys who would themselves cheat justice by such conduct, lend their influence to favor crime. An upright judge, truthful witnesses, honorable lawyers, and correct jurors will bring about proper adjustment in all troubles.

## SUCCESS SUMMED UP.

"Push," said the Button.  
"Never be led," said the Pencil.  
"Take pains," said the Window.  
"Always keep cool," said the Ice.  
"Be up to date," said the Calendar.  
"Never lose your head," said the Barrel.  
"Make light of everything," said the Fire.  
"Do a driving business," said the Hammer.  
"Aspire to greater things," said the Nutmeg.  
"Be sharp in all your dealings," said the Knife.  
"Find a good thing and stick to it," said the Glue.  
"Do the work you are suited for," said the Chimney.—Ex.

## CONTINUOUS EFFORT COUNTS.

It has been many years ago since there was a Commercial Club in Mt. Sterling and it was kicked until its demise was announced and its burial had. During its life the question of a Government building came up. Then the two youngest editors in Mt. Sterling, who are now the oldest, J. C. Wood and J. W. Hedden, took the matter up and pushed it until J. H. Wilson, then Congress man of the 10th district, framed a bill asking for many appropriations. Its weight killed it. J. W. Kendall then took the matter up and asked for \$25,000. After his death Hon. Joe M. Kendall revived it and amended it asking for \$50,000. This bill went to committee on Public Building and Grounds, the data for an argument was gotten up by committee from Commercial Club, of which writer was chairman, and committee approved the bill. Mr. Kendall was then succeeded by Parson Hopkins, Republican Congress man, as a result of a contest and this bill was allowed to slumber until the present congressman, Mr. F. A. Hopkins, took the matter up. Now an appropriation for \$100,000 is pending and Mr. Hopkins in a letter to Mr. Hedden says:

"When Congress convenes next winter I will ask you to furnish full statistics referring to your city which will be a basis for our claim for building, which we will get before we let up."

Such a statement with the pluck and tenacity of Mr. Hopkins is a guarantee that the appropriation will be made and the building be put up. We have written the above to show to our people that a Commercial Club organization is worth while and to inspire if we can, our people with a determination to be continuous in going out after something that would result in the material interest of Mt. Sterling. Let's get together with a Business Mens Club and continue in the work of building up and improving Mt. Sterling. Whatever helps one helps all.

## LACE TIGHT AND BE GREAT.

Such Is Text of Correspondent Who Says Gents and Small Waist are Inevitable.

A correspondent says that "the tight-lacing periods of history have always been productive of the greatest geniuses; the loose-dressing periods the reverse. Bacon, Shakespeare, Drake, Marlborough, Thackeray, Dickens, Scott—to mention only a few of the names—were born when chroniclers and fashion artists reveal to us the fact that "women were never satisfied till they could span their waists," and "while 18 inches was the fashionable standard, many fashionable girls and women possessed waists fully two or three inches smaller."

"One is again seeing much neater figures, and corseteers predict a revival of tight-lacing. Let us hope that this will mean a climb upward from the abyss of common-place, and a recrudescence of the brilliance which distinguished the Elizabethan age."

But Thackeray said he would as lief marry a girl with a bunched back as one with an 18-inch waist.

Born Tired.

## WHY COUNTRY WAS TAKEN

Expansion Was a Deliberate Scheme of Russia as Compensation for European Checks.

British opinion on the whole seems to take the view that the Russian occupation of Manchuria, and of Port Arthur in particular, was an act of wanton aggression, says a London paper, principally the work of prancing preconcerted and ambitious generals, whose proceedings have been reluctantly indorsed by a government too far removed from them to arrest the execution of their projects, and that now the same government would be only too glad to be quit of the whole engagement. This we believe to be a common notion in France, but it is deduced from inaccurate premises.

The expansion of Russia in the direction of China has not been the handiwork of adventurous spirits, whose proceedings could have been easily disavowed if unsuccessful. It is, on the contrary, a deliberate and well-thought-of scheme of compensation for checks in Europe. It is recognized by Russian statesmen, if not openly avowed, that projects of development in the near east are not likely to prove remunerative for some time to come, if ever, and that China offers a far more favorable field for their energy. If this be the case, it is easy to account for the immense efforts made and expense incurred in civilizing Manchuria, in building towns and railways, which the last few years have seen.

The British people had indeed spent a great deal of time and labor in the development of South Africa before the Boer war than Russia had spent in Manchuria before the outbreak of the war with Japan. Why should Russia, then, be any the more ready to retire from Manchuria, even if Kharofkin be more decisively defeated than he has been at present, than the British were to give up the struggle with Colorado?

## JAIL FOR INDIAN TRUANTS.

Copper-Skinned Hokey-Players Wind Up Careers with Whipping and Lock-Up.

It doesn't pay for an Indian schoolboy to play hokey. Guns are employed to capture the truant, and if caught he is not tied with a birch, but is hustled to prison like a felon. At least, so we are to believe if this account of one of the truants at the Chillicothe institute is true, says the Kansas City Journal.

"One party of five Ponca boys that I escorted to Chillicothe last December remained over Sunday and were returning to the reservation ahead of me. Unfortunately, they got on the summer of the returning train and, one of them looked into the pouch. I instantly surmised that the others were with him, and soon had three well seated and under guard. The fourth refused to come in and he indulged in a wrestling bout on the platform with the train speeding along at a rate of 40 miles an hour. I soon quit this method of capture, as it might have ended disastrously for both of us. Just as the train pulled into Ponca City my runaway jumped and I after him. He refused to stop and I fired twice, which simply compelled him to stop. I then compelled him to remark that with proper training that Indian could easily join the professional class of sprinters. I landed at the Ponca agency long after midnight with these three others, who were imprisoned."

B. W. Trimble, of the Mt. Sterling Advocate, for the past two Sundays has been preaching at the Court Street Christian Church.

The pastor, Eld. Armstrong, being on a Western Missionary tour. We can understand how an editor can be smart enough to preach, but how can he be good enough to past on comprehension. We can't account for it by any ordinary process of reasoning.

## Governor DENIES THAT HARGIS ASKED FOR HIS SUPPORT.

### He Didn't Ask Hargis to Resign From State Committee.

In an interview by telephone on Feb. 26 Gov. Beckham denied a report that Judge James Hargis had asked on his part to resign from his position in the State Committee in Fayette and Breathitt counties charging him and his brother, Senator Elbert Hargis and Sheriff Callahan, of Breathitt, with procuring the assassination of Town Marshal Cockrill, of Jackson.

Governor Beckham said that he had not been visited or besought by Judge Hargis or any one representing him, and denied that he had asked Judge Hargis to resign from the Democratic State Central Committee. He said that he had no relation to the defendant in the case, and would avoid connection in any way with these cases or any affairs not concerning him.

Judge Hargis and others from Jackson who appeared before the Court of Appeals Saturday were in Lexington Sunday night. He denied the report that he had appealed to the Governor for support.

We felt sure that Governor Beckham did not have anything to do in the Breathitt trouble, but we are certain he will have something to do with it if troubles do not come to an end right speedily.

# The Hawk's Nest, W. Va.

(By W. V. Brown, the Corn Doctor.)

No painter's brush or pen  
Has drawn a picture fair.  
As birds spread their bill and gleam,  
When autumn days are here,  
The forest leaves in varied hue,  
As a landscape to behold,  
They shine through atmosphere of blue,  
Like emerald and gold.  
We see and there a crimson tint,  
Between the mountains,  
And barren spots show the imprint  
Of cliffs of solid stone.  
Have mountains cleft in rugged peaks,  
To kindly open a door,  
Through which New River, fed by creeks,  
Must dash with deafening roar.  
Upon those craggy mountains high,  
The eagles build their nests,  
And teach their young the art to fly;  
When weary here they rest.  
These peaks are lifted up so high,  
They catch the sun's first ray,  
And view him last in evening sky,  
At close of every day.  
Though storm clouds battle far below,  
And smite the mountain side,  
Upon those heights the eagles know,  
The sunlight will abide.  
From off your hanging rock,  
Where almy serpents creep,  
Two lovers at restraint to mock,  
Once made a fatal leap.  
And lost their reason, be forgot,  
In memory we keep.  
By pointing often to that spot,  
And call it "Lovers Leap."  
And still we view another knob,  
Much steeper than the rest,  
No one dare undertake the job,  
Of robbing "The Hawk's Nest."  
Since with our mortal eyes we saw  
The grandeur there displayed,  
Our hearts are filled with sacred awe,  
We're come away dismayed.

## \$100,000.

Hon. F. A. Hopkins has asked Congress for an appropriation of \$100,000 with which to put up a Government building at Mt. Sterling. It is said these appropriations will not be made until after the meeting of the next winter session of Congress. The bill was introduced February 23rd and referred to the committee on Public Buildings and Grounds.

The following is the bill:  
A bill for the erection of a public building at Mount Sterling, Kentucky.

1. Be it enacted by the Senate  
2 and House of Representatives  
3 of the United States of America  
4 in Congress assembled,  
5 That the Secretary of the  
6 Treasury be, and he is hereby,  
7 authorized and directed to acquire,  
8 by purchase, condemnation,  
9 or otherwise, a site and  
10 cause to be erected thereon a  
11 suitable building, including  
12 fireproof vaults, heating and  
13 ventilating apparatus, elevators,  
14 and approaches, for the  
15 use and accommodation of the  
16 United States post-office, collector of internal revenue, and  
17 other Government offices in the  
18 city of Mount Sterling and  
19 State of Kentucky, the cost of  
20 said site and building, including  
21 said vaults, heating and  
22 ventilating apparatus, elevators,  
23 and approaches, complete,  
24 not to exceed the sum of one  
25 hundred thousand dollars,  
26 which said sum of one hundred  
27 thousand dollars is hereby  
28 appropriated for said purpose out  
29 of any money in the United  
30 States Treasury not otherwise  
31 appropriated.

32 Proposals for the sale of land  
33 suitable for said site shall be  
34 invited by public advertisement  
35 in one or more of the  
36 newspapers of said city of  
37 largest circulation for at least  
38 twenty days prior to the date  
39 specified in said advertisement  
40 for the opening of proposals.  
41 Proposals made in response  
42 to said advertisement shall be  
43 addressed and mailed to the  
44 Secretary of the Treasury, who  
45 shall then cause the said proposed  
46 sites, the result of said examination  
47 and of his recommendations  
48 thereon and the reasons therefor,  
49 which shall be accompanied by the  
50 original proposals, and all maps, plans,  
51 and statements which shall  
52 have come into his possession  
53 relating to the said proposed  
54 sites.

18 If upon consideration of said  
19 report and accompanying papers  
20 the Secretary of the  
21 Treasury shall deem further  
22 investigation necessary, he  
23 may appoint a commission of  
24 not more than three persons,  
25 one of whom shall be an officer  
26 of the Treasury Department,  
27 which commission shall also  
28 examine the said proposed sites  
29 and such others as the Secretary  
30 of the Treasury may designate,  
31 and grant such hearings  
32 in relation thereto as they  
33 shall deem necessary; and said  
34 commission shall, within thirty  
35 days after such examination,  
36 make to the Secretary of the  
37 Treasury written report of their  
38 conclusion in the premises,  
39 accompanied by all statements,  
40 maps, or documents taken  
41 by or submitted to them, in like  
42 manner as heretofore provided  
43 in regard to the proceedings of  
44 said agent of the Treasury  
45 Department; and the Secretary  
46 of the Treasury shall thereupon  
47 finally determine the location of  
48 the building to be erected.

49 The compensation of said  
50 commissioners shall be fixed by  
51 the Secretary of the Treasury,  
52 but the same shall not exceed  
53 six dollars per day and actual  
54 traveling expenses: *Provided,*

55 *however,* That the member of  
56 said commission appointed  
57 from the Treasury Department  
58 shall be paid only his traveling  
59 expenses.  
60 So much of the appropriation  
61 herein named as may be necessary  
62 to defray the expenses of advertising  
63 for proposals, actual traveling  
64 expenses of said agents, and the  
65 compensation and actual traveling  
66 expenses of said commission,  
67 and other expenses incident to  
68 the selection of the site, and for  
69 the necessary survey thereof and  
70 payment therefor shall be immediately  
71 available.

72 So much of said appropriation  
73 as may be necessary for the  
74 preparation of sketch plans,  
75 drawings, specifications, and  
76 detailed estimates for the  
77 building by the Supervising  
78 Architect of the Treasury Department  
79 shall be available immediately  
80 upon the approval by the Secretary  
81 of the Treasury of such site.

82 After the said site shall be  
83 paid for, and the sketch plans  
84 and detailed estimates for the  
85 building shall have been prepared  
86 by the Supervising Architect of  
87 the Treasury and approved by  
88 the Secretary of the Treasury,  
89 appropriation shall be available  
90 for the erection and completion  
91 of the building, including fireproof  
92 vaults, heating and ventilating  
93 apparatus, elevators, and approaches.

94 The building shall be unexposed  
95 to danger from fire by being  
96 set on open space of at least thirty  
97 feet on each side, including  
98 streets and alleys.

SUMMER COON.

I have bin called on by most of all the prominent admirals of the state to take a hand in our state trouble before the bottom of Kentucky drops out and looses the whole load. My want basket is kep chuck full of all kinds of letters and telegraph dispatches coming in for my train. I hardly get one trouble settled before an other comes up. I have jest got a union depo started on wheels in Lexington, now I am figuring on having the state capitol moved from Frankfort to Jackson in Brethit county. I beleav it would be a better place for business. I beleav I have a bout got the ten million long green problem up and going, so look out for Mrs. Chadwick next. I propose to call all of the American powers to gather and see if there cant be sum steps taking in which we can all hand ourselves together and a gree on a plan to induce our people to come back in the line of civilization. It looks like the whole load has gone rong, especly in old Kantuck. The Brethit and Fayatt admirals should be brought to gather harmonously and save futher expence to the country. I am afeard if the Brethit and Fayatt admirals should come to gather in a rage of passion the ground would be so badly disfigered it would not produce and more long green tobacco, besides all the flavor in the atmosphere would be ruined for sum time. It wont do to neglect those nashional troubles to long. If this trouble cant be settled between the admirals without a pop gun war we may jest as well send a few of our battle ships and torpedo boats up red river and take fort Jackson at once, then let the people say who shall be high buck or lo do in the lay out. Jest think a bout what a narro escape wee had in moving that pile of mud between the goveror and Jo. Its usto he said ardy dog has his day, but that wont work now, for there is more dogs then days at this stage of the game, however we will side trunk on this subject and line up on the large union depo whitch is now sprouting up from ehin music seed. Gee, but wont it be a cracker jack. By gosh I wish it wer built now so a feller might have a place to hang a round and keep sorter warme thes cold nights, but still I no there is nothing in it but talk; it is a old gag; it comes up ardy few years. The question of the depo runs along the ground hog line—the springs out now and then and then she falls back in the hole for a few summers more. I have often noticed sum fellows when the wer seated in a good comfortable place about half full of bug juice backed up with a quid of long green or a cob pipe, what big schemes would tackle there brains and it would take severl days in sum cases for those schemes to work off. Jest keep an eye on this depo racket and if it dont prove to be a dead cock in the pit then I will give up the mule; mind what I bole you. It takes the real stuff itself to get rail roads and depots. Sum times a fello may think he has a bull by the horns and when he begins to sum himself up he finds he tackled another ground hog. So if we can all get together and do our duty as far as we no, what a demand there will be for ropes. Talk about your ten million of backer money that is to be sostered a bout all over the state for the benefit of the long green brigade ant a circumstanc to what the rope trade would be if ardy thing wer earled on in a business-like maner in old Kantuck. I dont no but I beleav Mr. Mose Feltner would say that I wer write, for Mose cant be doated; he is allways chuck full of the clean thing, you bet. Wel, I had concluded to cheek up on the fifth sheet, tho I will make a few more scaterig remarks. I have bin watching and reading up closely along the line of the Brethit county assassination and I note it is easy for one class of the people to trail up and find out all about the men who concocted and led the dirty work dun, and yet none of those same people is in shape to no any thing about who the laddy bucks wer that prompted the assassination of goveror Gobel. Circumstantial evidence seems to work all right in the Brethit job, but thes are no good in the Gobel job. Now if Mr. Powers is not gilly let us throw in and hav him cleared. No one seen him pull the trigger. Let the good Lord deturm who is a who and who ant.

## Fire.

The First Presbyterian Church at Lawrenceburg was burned on Sunday morning during the service. The building was old, and cost about \$10,000; insured for \$3,000.

Emma Russell committed suicide in Middlesboro on Saturday because she was disappointed in love.

No action of the Kentucky Federal building bills is expected at this session of Congress.

## Governor Appoints.

Mr. James M. Richardson, of Barren county, has resigned as State Prison Commissioner and Col. Harvey McCutcheon, of Russellville, is tipped to succeed him.

## Indicted.

On Tuesday of last week a Breathitt county grand jury indicted the Hargises, Callahan and others for the murder of James Cockrell in the summer of 1902. This is regarded as an attempt to prevent Fayette county having the trial for indictments there.

**THE FENCE QUESTION SOLVED**  
A botanical friend showed me not long since what he said was the apple that must have tempted Eve in what was surely a tropical fruit garden. It was a little bit of an oriental crab, about a third of an inch in diameter, and of course, it was bitterly sour. My philosophizing friend pointed out that, of course, the fruits in Eden were the natural "wild" fruits, and he was wondering whether the fall of mankind would not have been accelerated if the attracting tree had been hung with a fair crop of the golden bellflower, or of the crimson-striped wealth or wine-sap—Country Life in America.

## BLONDES ARE DISLIKED.

Girl with Straw-Colored Hair Finds Securing an Office Position Difficult.

The young woman was of a perfect blonde type. Her hair was straw-colored. With an avowal of her condition she said to a writer for the Philadelphia Bulletin:  
"Though I am an expert stenographer, I find it difficult, on account of my straw-colored hair, to get work. Men think that my hair is bleached, and they hesitate to employ a bleached blonde, for they know well that she who would bleach her hair to so conspicuous a hue as mine would have a soul too frivolous for sober typewriting and shorthand."  
"When I was out of work last year I had to apply to six or seven places before I could get a place. Three of the men to whom I applied didn't test my ability in any way. They said lamely that they were sorry, but they preferred an older, a more sedate person. Two men, after a brief talk, admitted that my work suited them, but had to admit also that their wives had peculiar views, and would object to my presence in their husbands' offices."  
"The man who engaged me was a bachelor. He, too, was about to repulse me, when I broke out desperately with:  
"Look here, I am not a bleached blonde. My hair is straw-colored naturally. If you object to it, I'll wear a brown wig during working hours."  
"The man laughed and took me on. He has told me since, though, that he would not have taken me but for my frank outburst.  
"Hair like mine is perhaps beautiful, but it is a serious drawback to an honest working girl."

**BIRD LIGHTS STREET LAMP**  
Hanging Wren Pulls Chain Attached to Gas and Apparatus Flares Up Unexpectedly.  
In a suburban town where the streets are lighted by gas lamps, a curious thing happened. A gentleman noticed that for several nights the gas was not lighted in front of his house and reported the matter to the gas company. The lamplighter who had the street in charge was sure that he had lighted it each night.  
Later the gentleman noticed that the lamp was often lighted throughout the day and decided that some mischievous boy was responsible for it. Keeping a close watch for the offender, he was astonished to see the light flash up when not a soul was near it. He placed a ladder against the post and climbed up to investigate the matter. He found that the two chains which turned the light on and off moved so easily that the slightest touch was sufficient to send them up or down. But they could not move of their own weight nor by the wind. Still more puzzled, the man returned to his watch at a discreet distance and was soon rewarded by seeing a wren fly to the lamp, perch itself on the ring at the end of the chain, and give it a pull which lighted the gas. He then remembered that a wren had reared a brood in the lamp that year.

**Eve's Temptation.**

## A LETTER TO MOTHERS.

All Mt. Sterling Women Should Be Interested.

Mrs. Charles Perry, of Glens Falls, N. Y., writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver oil preparation, Vinol. We were so worried about our little daughter—she had lost flesh, was pale and sickly, and nothing seemed to do her any good. Having heard of Vinol we decided to try it, and as the results were marvelous. Her appetite has been

restored and she is gaining in weight right along, the color has returned to her cheeks, and she seems stronger than she has for years."  
Every mother in Mt. Sterling is asked to try Vinol on her guarantee to make children robust, strong and healthy or return money if it fails. Vinol is a pure cod liver oil preparation, but without a drop of oil to upset the stomach and retard its work. It is delicious to the taste, and children love it. It does not taste, nor look, nor smell like a cod liver preparation—yet it is.

We have never sold anything in our store equal to Vinol to create strength for old people, weak, sickly women and children. Wm. S. Lloyd, Druggist.

## Don't Shoot Hawks.

Why shoot the chicken hawk when it comes within range. Why shoot any hawk? True, we all do so, or have done so. But why? For the most part, we fear, because we were simply savages out to slay; indeed, more savage than the savages, for the latter rarely killed animals which were not dangerous or which could not be used. Now, about the hawk, let us go once more to Uncle Sam, who is passing wise in many things. Uncle Sam has been studying hawks. Of 124 stomachs of marsh hawks which were examined, 45 per cent of the hawks had been feeding on mice, 18 per cent on other small mammals, 18 per cent on reptiles, frogs and insects and only a very low percentage on poultry and small birds. We do not find that this bird was so very destructive to quail and partridges after all, and it is under this latter supposition that sportsmen shoot hawks when they find opportunity. Uncle Sam concludes that the marsh hawk is a beneficial bird and that its presence and increase should be encouraged in every possible way. Then why shoot it down, as it fits by, striding in its own ancient and appointed way, to get on in the world, just as each of us is striving. We counsel each sportsman to think the matter over, and to remember that the results of scientific investigation are more conclusive than hasty suppositions.

## Berea Again Fined.

A second fine of \$1,000 was assessed against Berea College in the Circuit Court on the charge of maintaining a negro school within twenty-five miles of the college. The university attorneys filed a demurrer to the indictments returned by the grand jury, but this was overruled by Judge Benton, who again sustained the constitutionality of the Day law. The case will be appealed, and, if necessary, will be taken to the Supreme Court.

John H. Converse, of Philadelphia, head of the Baldwin Locomotive works, has recently made a gift of \$50,000 to the Presbyterian Board of Foreign Missions.

**K. W. C. NOTES,**  
[Winchester, Ky.]

The work of the students was not interrupted by the burning of the college but for one day. School was begun in temporary quarters on Wheeler Ave., on Thursday.

The four contestants to represent the colleges in the State Oratorical contest are busy on their orations.

The committee for raising funds to rebuild the college at Winchester are very successful.

The Euclidean Literary Society will meet in the basement of the Christian Church as temporary quarters; while the Philomathean Literary Society will meet in the under-school room of the Methodist Church. Mr. Jno. White Trimmer is President of the Philomathean.

The entertainment given by the college at the court-house to celebrate Washington's Birthday, was successful. Mr. John M. Stevenson, of the local bar, delivered a masterful oration on the work of Washington and its influence. Music as rendered by choir from the college students with the assistance of Mrs. Savage, Mrs. Anderson and Miss Buckner.

**Residential Property in Demand.**

T. F. Rogers, the live real estate agent, has in the last few days disposed of city property to the following persons, who have identified their interests with ours:

Mrs. Elizabeth Everett's brick residence on Mayvile street to Dr. T. Ricketts and John M. McCormick.

Mrs. Mary Dickey's property on Fifth street to James K. Royce, of Clark county.

Mrs. Anna Lee Cannon's property on W. Wing street to Cook Co. for her mother, who moves here from her farm in Bracken county.

Elm street cottage of T. F. Rogers to John W. White, of Steptone.

The second story of Mrs. Minerva Williams' brick building, Sycamore street, to Mrs. J. B. Carter, of Lexington, of Bourbon county.

East Main street residence of Dr. R. Q. Drake to J. F. Trumbo, and divers other pieces of property to persons who have come to Mt. Vernon, to take up their home. He could rent much more if it could be sold.

**EXPRESSIVE NAME FOR INDIGESTION.**

**W. S. Lloyd Has Simple Remedy That Is Guaranteed to Cure The Trouble.**

No one word better expresses the condition of the sufferer from weak stomach or indigestion than "misery." The stomach is weak and cannot digest the food, so that there is no appetite, there are pain and griping in the stomach and bowels, the head and back ache, and misery goes to every organ.

Strengthen the stomach and the digestive system by the use of Mi-o-na. This is the only stomach remedy known that gives relief by strengthening the stomach at digestive organs. It is the principle that makes it a certain cure for indigestion. Other medicines may give temporary relief by helping digest the food, but they do not strengthen the stomach, and that organ gets weaker and weaker all the time.

W. S. Lloyd the reliable retail Druggist has so much confidence in this remarkable remedy that he guarantees a cure, or the money will be refunded. Mi-o-na costs but 50 cents a box. Ask to see the strong guarantee given with every box.

Mi-o-na is in tablet form and should be taken before each meal. Other remedies for stomach troubles and indigestion are taken after the meal, and decompose the good food you eat, but Mi-o-na taken before eating strengthens the stomach, soothes and heals all irritation and inflammation, enriches the blood, and puts the stomach in such a healthy condition that it will take care of the food itself and there will be no pain or suffering.

### THE SICK.

Mrs. Will Turley is improving. Mrs. Ben Frisby continues seriously ill.

W. Hoffman Wood is at home sick with grip.

W. T. Fitzpatrick has sufficiently recovered to be able to be up and about the house.

Miss Florence Stinson is very low with consumption.

Butler Carrington is seriously sick at his home in the country.

Insurance Commissioner H. R. Prewitt is confined to his home with grip and will not be able to return to his duties at Frankfort for several days. While he is quite sick his case is by no means considered serious.

Cut prices on winter-weight suits at Guthrie Clo. Co.

### LAND, STOCK AND CROP ITEMS.

Last week R. C. Gatewood sold to Gentry & Thompson, at Lexington, a pair of 4-year-old mules for \$425.

Big cut on overcoats at Guthrie Clo. Co.

### A Card.

Since purchasing the fire insurance agency of Harry G. Hoffman I am better prepared than ever to take care of patrons by protecting their property with good indemnity in first class companies. My friends will please remember that I am still in the fire insurance business to serve them to the very best of my ability and their policies will be renewed as they expire from time to time.

Yours Sincerely  
T. F. ROGERS.

### Died Without Belief.

A message is given out from California that a man by the name of See has died recently and has left an estate valued at many thousands of dollars. He has no heirs in California but it is said he claimed to have relatives in Kentucky. It is possible he is a relative of John B. See of this county.

### Eggs For Sale.

I have Brady & Bright's strains of Barred Plymouth Rock chickens and will sell 15 eggs per setting at 75 cents delivered at Mt. Sterling. Mrs. JAMES CHAVENS, Mt. Sterling, Ky. R. F. D. No. 3.

The description of the gown to be worn by Mrs. Roosevelt at the inauguration, has just been made public and has created great interest. The silk for the costume was woven in Patterson, N. J., and after enough had been made for Mrs. Roosevelt's dress the design was destroyed. Likewise the pattern used by the New York modiste was burned after the material had been cut.

Tobacco men will see in this issue "New Tobacco Warehouse."

### Fast Growing.

The Old Kentucky Telephone and Telegraph Co. have had made a supplemental list to add to their directory. Eighteen names in a little over a month's time is fast growing, and at this rate in winter, 1,000 names will soon be reached.

Tailor made suits to order \$15 and up at Guthrie Clo. Co.

### Fire.

The fire on Wilson St., Friday consumed the building of W. T. Fitzpatrick caused by a lamp turning over and exploding. Loss was total. Property was worth \$800 and insured at \$250.

Buy your spring hat from Guthrie Clothing Co.

### Accident.

James Offutt, aged 80, of Georgetown, died on Sunday having slipped on icy pavement and broke his shoulder.

At a negro funeral in Brooklyn, the floor of a church collapsed and thirteen were killed and fifty were injured.

### DEATHS.

BLAKE.—Thomas Blake who died at Winchester on last Friday was buried in Catholic cemetery at this place Monday. His wife was a cousin of Pat Shannon. He was 55 years old.

GARRETT.—Mrs. Rebecca Garrett, wife of J. R. (Bob) Garrett, died at Georgetown, Ky., on Friday night, February 24, 1905, of paralysis, after a short sickness. The family lived here several years ago, her husband being editor of the Sentinel, now the Sentinel-Democrat. Mrs. Garrett was a most excellent woman, a consistent member of the Baptist Church, and sister-in-law of Jerry Cockrell, of this city.

HENKLEY.—On Sunday, after being sick a week, Howard Henkley, one of the most highly respected colored men in this city, died from paralysis, aged 73 years. He had 11 children, 7 of whom survive him. Among them are P. L., of this city; Mrs. Susie Henkley and Milton, of Chicago, and John, of Dayton. He was a member of the Methodist Church, and after service at the home of his son, Peter, by Rev. J. Smith, remains were buried in Olive Hill Cemetery.

YOUNG.—After a short sickness, death came suddenly to Mrs. Elizabeth, wife of Hon. Jno. D. Young, of our city, on Wednesday night, February 22, 1905. She was born in Bath county March 25, 1825, hence would soon have been 80 years old. She was the daughter of Mr. and Mrs. Nelson Badger. She was married to Mr. Young on August 27, 1843. It is seldom that husband and wife for nearly 62 years share the joys and sorrows of life. Mr. Young is still able to attend to business and mingle with friends. Seven children are living: Mrs. Jacob Henry, J. Monroe Young, Mrs. Edward Bean and Jno. D. Young, Jr., all of Chicago, Ill.; Mrs. J. B. Martin, of Richmond, Va.; Mrs. James Powell, of Louisville, and Mrs. Jno. W. White, of this city. A good woman has entered into the rest that awaits the people of God. In her 13th year she gave her heart to the Christ, and her life, adorned with the graces of such a faith, has been spent in the service of her Savior, a rich benediction to those who came in contact with her. The funeral service was conducted at the Christian Church on Saturday morning by Rev. H. D. Clark, whose words of comfort, assurance and hope were full of praise for her who had fallen asleep in Christ, and of inspiration to noble living by all who heard him. To the aged husband and his children we extend our sympathy.

Prices right, satisfaction guaranteed: a cutter to take your measure March 7, 8 and 9.

Paul Jeffries, of Indianapolis, Ind., formerly a Clerk of the Indiana House of Representatives, now a thrifty coal dealer of Indianapolis, was here Sunday morning of last week the guest of his cousin, Brack Jeffries. From a conversation with a reporter of the Advocate we learned that the people of Indiana were of the opinion that if W. S. Taylor, a refugee from Kentucky was returned it would mean immediate death to him, that they believed that a mob would be formed and that a chance for his life before a Kentucky jury would never be had. The present Governor he did not believe would ever honor a requisition from Kentucky and that Taylor would rest at ease during the present administration. Mr. Jeffries further said Taylor was unpopular in business relations. At this point a listener joined in and said: "A State official of Indiana, of high rank, had said he wished Kentucky had Taylor that he might receive his just deserts."

Have your suit ordered and tried on before finished. Our cutter, Mr. Swaffield, makes special trips to try on all orders. Mr. Swaffield will be with us Tuesday, Wednesday and Thursday, March 7, 8 and 9, with all the up-to-date patterns for spring and summer. We want you to see this line.

Yours respectfully,

### One Better.

The Old Kentucky Telephone and Telegraph Company could not be stopped in her aggressiveness even though the mercury registered in the neighborhood of zero, and on the 23d of February announced to the public she was ready for talk with Clay City. This line is not going to stop with Clay City. They propose connection with all sections East and West, North and South.

N. T. Benton, who some time ago accepted a position as traveling salesman in Kentucky, has resigned and is again with The Guthrie Clothing Co., where he asks his old friends and customers to call and see him.

Harry Wright, formerly of this city, who has been attending school in Louisville, has added his name to the list of the many other telegraphers who are on the Illinois Central Railroad. We wish for him a bright future.

Bought a bunch of 1250-pound Cattle; beauties, the Most desirable Beef. They are being slaughtered now.

TRIMBLE & HON.

Farmers are making preparations for the tilling of large crops.

### Winchester Court.

About 200 cattle at Scoobee's pen. The best price for feeders was \$4.15. Some sales were at 34 and 35c, but more were at 40c.

### Elevated Street Railway.

Winchester's under-ground system of street railway has been elevated ———; it is now a surface system.

George W. Anderson, Jr., and Grover Anderson have resigned from duty at Clay City and will engage in farming, having rented a farm adjoining their father on the Levee pike.

The good news comes from New Orleans that Dr. R. Q. Drake is fast recovering and that Dr. W. R. Thompson is well and getting fat and strong. Mrs. Drake and son, Ben P., have fully recovered.

### Change in Firm.

W. R. Nunneley has sold his interest in the Guthrie Clothing Company to Mr. W. P. Guthrie, and the business will continue as heretofore under the name of "The Guthrie Clothing Company."

This business started under the above name years ago in a very modest way with W. P. Guthrie & W. R. Nunneley at the head, and now the Guthrie Clothing Company is one of Mr. Sterling's best paying enterprises. Mr. Guthrie expects to add largely and to increase his business according to the demands on it. Norvel Benton, who had arranged to go on the road will be with Mr. Guthrie.

Mr. Nunneley is undecided as to his future plans. He has some very flattering business propositions. A man of his business capacity and hustle will command most any good place in reason, and he doubtless will have charge of some the business before many days.

### New Tobacco Warehouse.

Mr. Tandy Quisenberry, late of Louisville, the old warehouseman and tobacco inspector of that market, is now employed as TOBACCO INSPECTOR by the Buckeye Leaf Tobacco Warehouse, 7 to 17 E. Water street, Cincinnati, O. W. A. Bradford & Co., proprietors. This is strictly an INDEPENDENT warehouse and does a commission business. He has many acquaintances among the farmers of Montgomery county and they will do well to consign their tobacco to the Buckeye, knowing that they will have a fair and honest deal through Mr. Quisenberry as inspector. 83-4c
